Planning a career in Montessori teaching??

Get Certified in Montessori Teacher Training from Green Dot..

Montessori Teachers Training

The Montessori Method of education is a unique form of early education, emphasizes child-led learning and discovery. Montessori is a scientifically founded method of educating children founded on the belief that a child's education should be constructed to develop all aspects of a child: social, emotional, physical and academic. GDIS, is proud to announce that we have completed 10 successful years in the field of imparting Montessori education. We know that the prospective parents would like to make the right choice about their child's future. After all, choosing an academically strong, yet nurturing environment for the child is one of the most important things that any parent would do.

GDIS strongly believes that every child can benefit from a Montessori education.
Montessori teachers are conduits between their students and the vast world of knowledge and discovery that surrounds them. Their role is to observe students, identifying their needs and responding with appropriate individualized guidance and instruction. In the classroom, the Montessori teacher prepares a rich educational environment designed to create natural opportunities for independence, citizenship, and accountability.

Become a Montessori educator

Certificate in Montessori Teacher Training is a contemporary course tailored for aspiring Montessori teachers planning a career in Montessori teaching. As a Montessori teacher one needs to be a constant guide for children and cultivate the qualities of reticence and restraint.

GDIS, conducts Montessori training programmes for deserving and determined candidates. It is a 8 months training programme, including 1 month of internship. This programme can be taken up by any graduates , irrespective of their fields.

About Green Dot Montessori School..

Green dot Montessori school has been offering education based on Montessori method to children since 2011. Our goal is to help the child to become complete adult human being comfortable with himself, with his society and humanity as whole.

Dr. Maria Montessori, the founder of the Montessori Method, was the first woman to practice medicine in Italy and the lady behind the method who developed an approach to education that is based on the child's natural desire to learn. Her observation during her medical practice in midst of children has helped her to understand that children between the age of 0 to 6 years absorb everything around them like a sponge, which she called as The Absorbent mind. The method of Dr. Montessori was first implemented in San Lorenzo, Rome and was name as Casa-de-Bambini, means the "House of Children".
